**“He’s probably a real danger now”**

**After last weeks signing of the contract with C.D.F.G pigeon man didn't let the million dollars go to waste he immediately formed a corporation ( Pigeon industries .CO ) he also started building an army which includes a pigeon airship, pigeon bombers, “pigeon bots” and mind controlling devices to strap on to innocent pigeons.**

**after this he started going around the province luring innocent pigeons into his van its unknown what he did with the pigeons but just one day later there were more than 1,000 pigeons with mind controlling devices on their heads. Now that he had a pigeon army he planned to attack the crow association that made fun of him he started by tracking down their headquarters & found out that they were hiding out at a local taco shack.
